

General Pediatrics Fellowship

Facilities

UT Southwestern Medical Center is comprised of:

- [UT Southwestern Medical School](#),
- [UT Southwestern Graduate School of Biomedical Sciences](#), and
- [UT Southwestern School of Health Professions](#).

These three schools currently train more than 3,400 medical, graduate, and allied health students, residents, and post-doctoral fellows each year. We have five Nobel laureates; four are active faculty members. Additionally, UT Southwestern supports more than 3,500 research projects with more than \$400 million in annual funding. Clinical facilities are located immediately adjacent to UT Southwestern.

Most of the pediatric clinical work is done at [Children's Medical Center Dallas](#) (CMC). Selected out-patient and consultation services also are provided at the Legacy campus in Plano, Texas, located 25 minutes from Dallas.

CMC is a private, not-for-profit institution that was established more than 80 years ago. Today, this 438-bed medical center features a three-floor, 37-bed general pediatric inpatient unit, 44-bed pediatric intensive care unit, 21-bed pediatric cardiac intensive care unit, 37-bed neonatal intensive care unit, 22-bed telemetry unit, nearly 50 outpatient clinics, and an emergency center designed specifically for children.
