- **Brendan Paulman** *promoted to HRPP Program Manager for Reliance and Agreements*
- IRB welcomes New Staff:
 - **Adrian Avila** – *September 30, 2024*
 - **Noah Hendrix** – *October 7, 2024*

*4 Senior Regulatory Analyst
positions to fill*

- Final programing in progress for the SCCC protocol templates
- Protocol Builder testing occurring at end of October 2024
- Protocol Builder launch mid November 2024
- Will have the ability to invite non-UTSW affiliates to use the platform

Case Reports

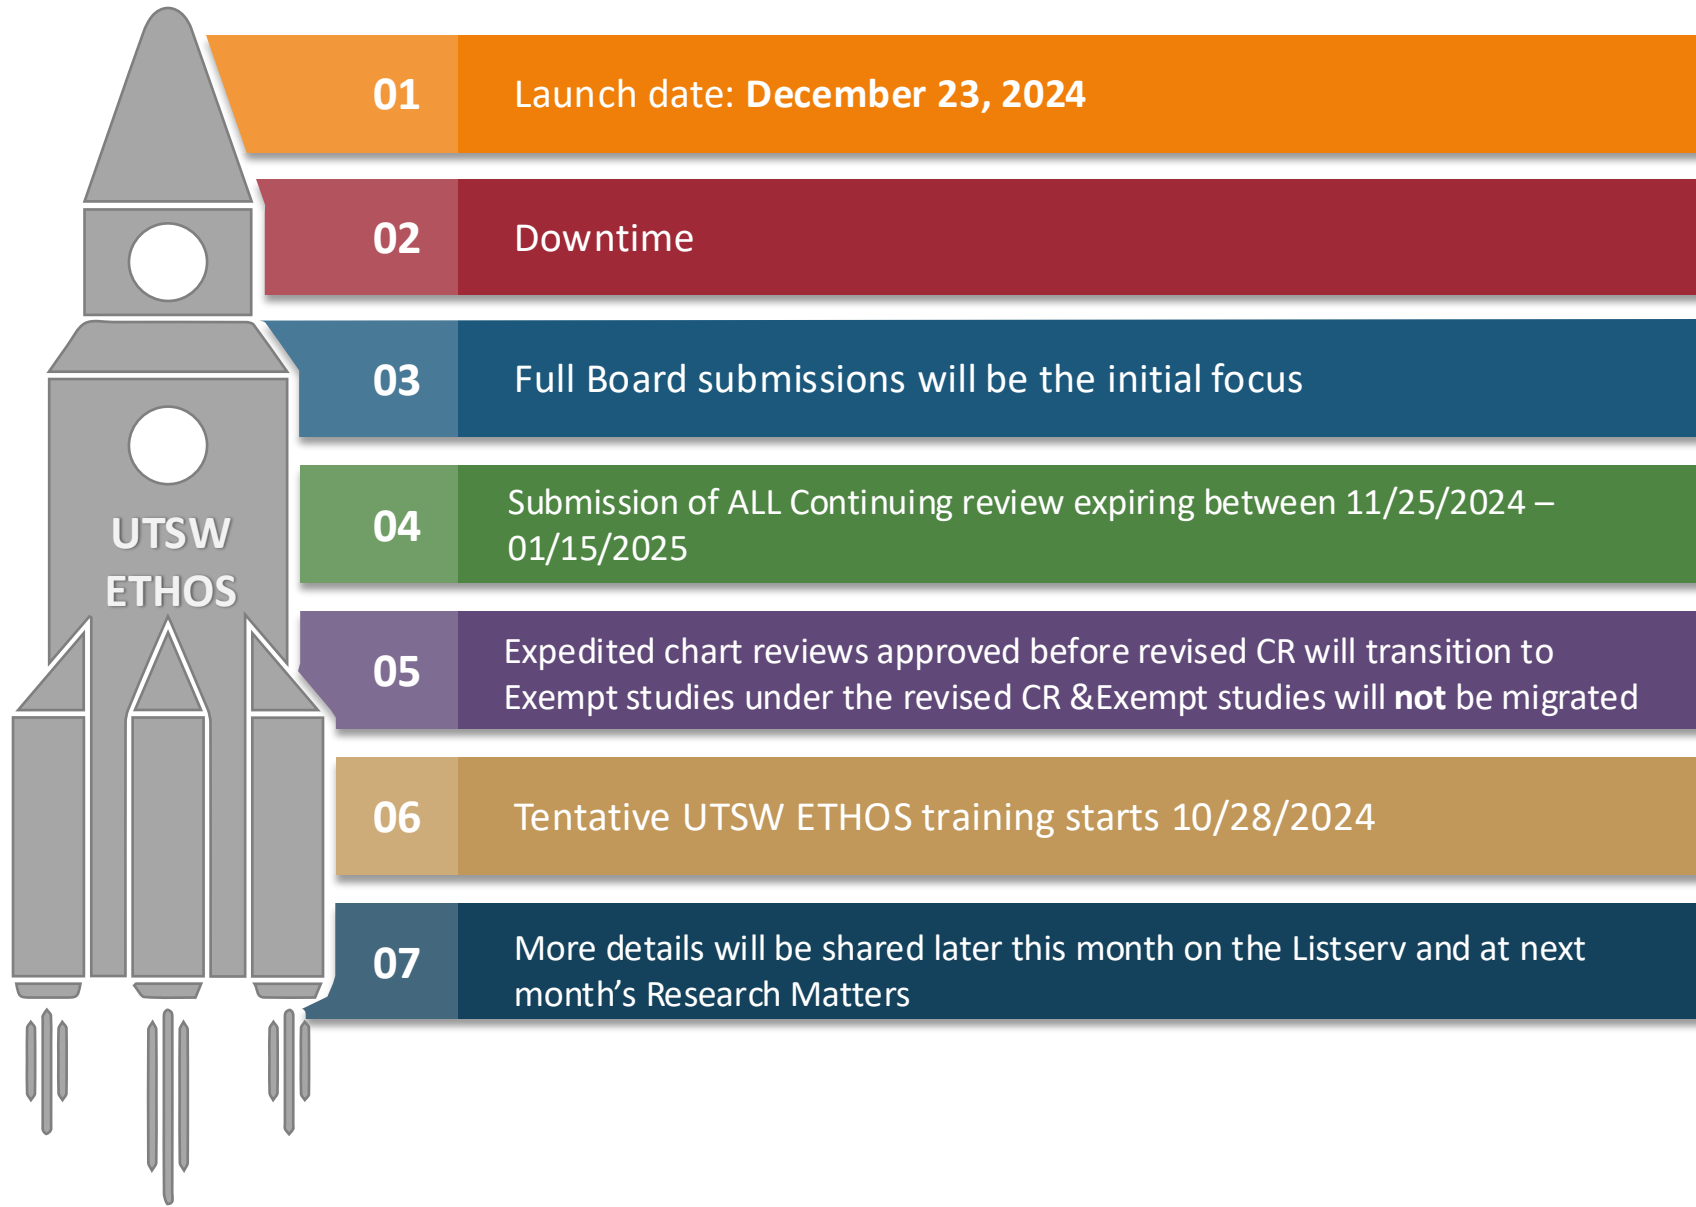

- 1** A detailed report of the symptoms, signs, diagnosis, treatment, and follow-up of an individual patient and usually describe an unusual or novel occurrence that aid in medical progress and provide many new ideas in medicine
- 2** Privacy and confidentiality concerns are heightened due to the rarity of the condition/treatment
- 3** HIPAA Authorization ensures safeguarding of information and transparency on how a patient's information will be used/shared
- 4** Re-identification may be possible due to the wish to further explore
- 5** Cannot conduct Case Report without fully compliant HIPAA Authorization
