

Postdoctoral Training Position Available

Mechanisms and New Treatments for Chronic Pain

A postdoctoral training position is available in the laboratory of Dr. Amol Patwardhan, [Patwardhan Profile](#), in the Department of Anesthesiology & Pain Management at UT Southwestern Medical Center to carry out pre-clinical and translational research investigating the mechanisms and new treatments for high impact chronic pain. Lab techniques combine rodent pain behavior, cellular and molecular work involving plate assays, microscopy, human patient sample collection/analysis and cell culture. Competitive applicants will have experience with animal behavior and a track record of productivity, including first-authored publications. Our laboratory [Patwardhan Lab](#) has several exciting projects related to treatments for chronic pain.

Candidates must possess a recent Ph.D. and/or M.D. degree, with demonstrated experience in neuroscience and/or pain-related research. Additional qualifications include expertise in multidisciplinary research and a strong record of peer-reviewed publications. Previous animal work experience.

Information on our postdoctoral training program, benefits, and a virtual tour can be found at <http://www.utsouthwestern.edu/postdocs>.

Interested individuals should send a CV, statement of interest, and a list of three references to Dr. Amol Patwardhan, MD, Amol.Patwardhan@utsouthwestern.edu

UT Southwestern Research and Training at a Glance:
